RANCHER

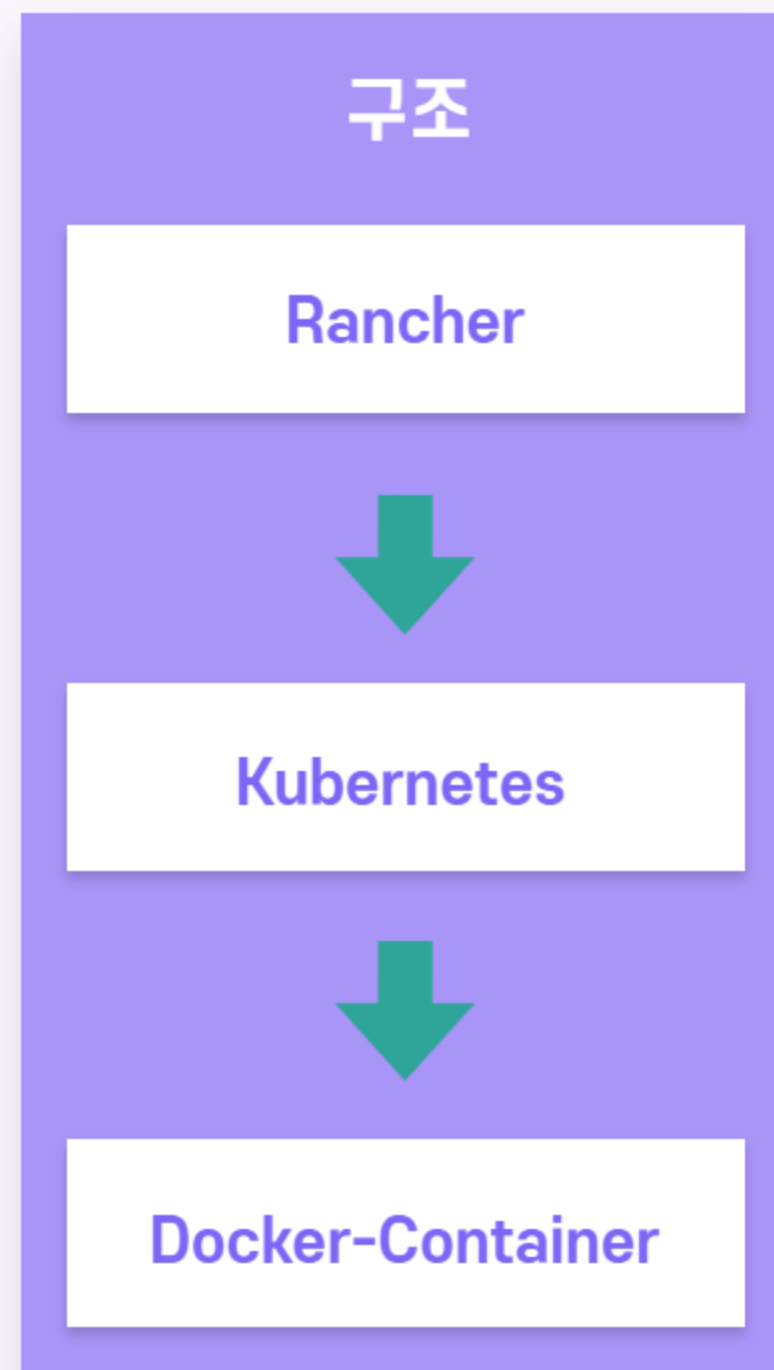

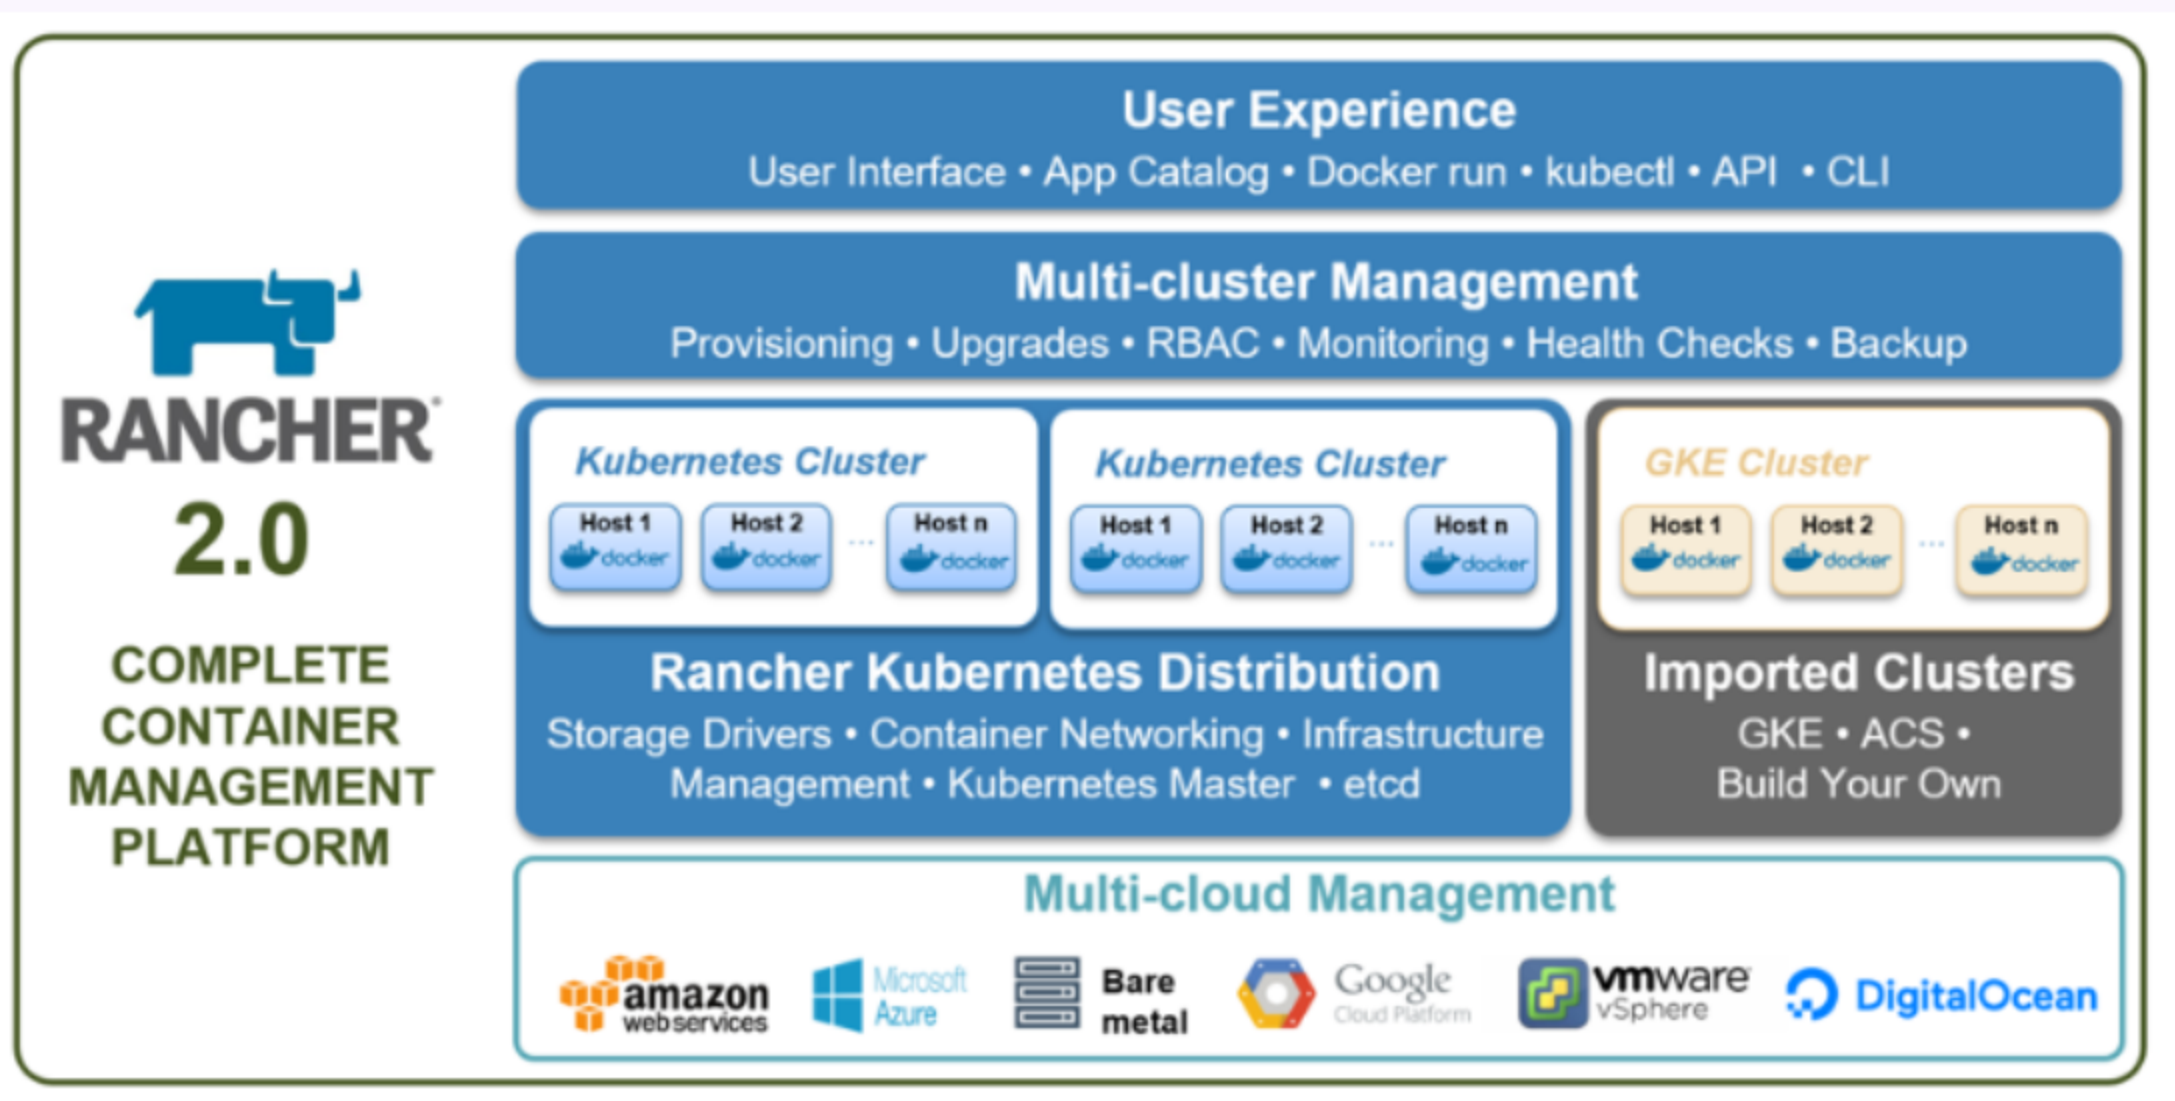

컨테이너를 관리하기 위한 플랫폼

Rancher is not a container orchestrator.

It's a complete container management platform that includes everything you need to manage containers in production.

You can quickly deploy multiple Docker and Kubernetes clusters across multiple clouds with the click of a button.

“ 컨테이너 워크로드를 보다 쉽게 관리할 수 있도록 도와주는 멀티 클러스터 관리 플랫폼 ”

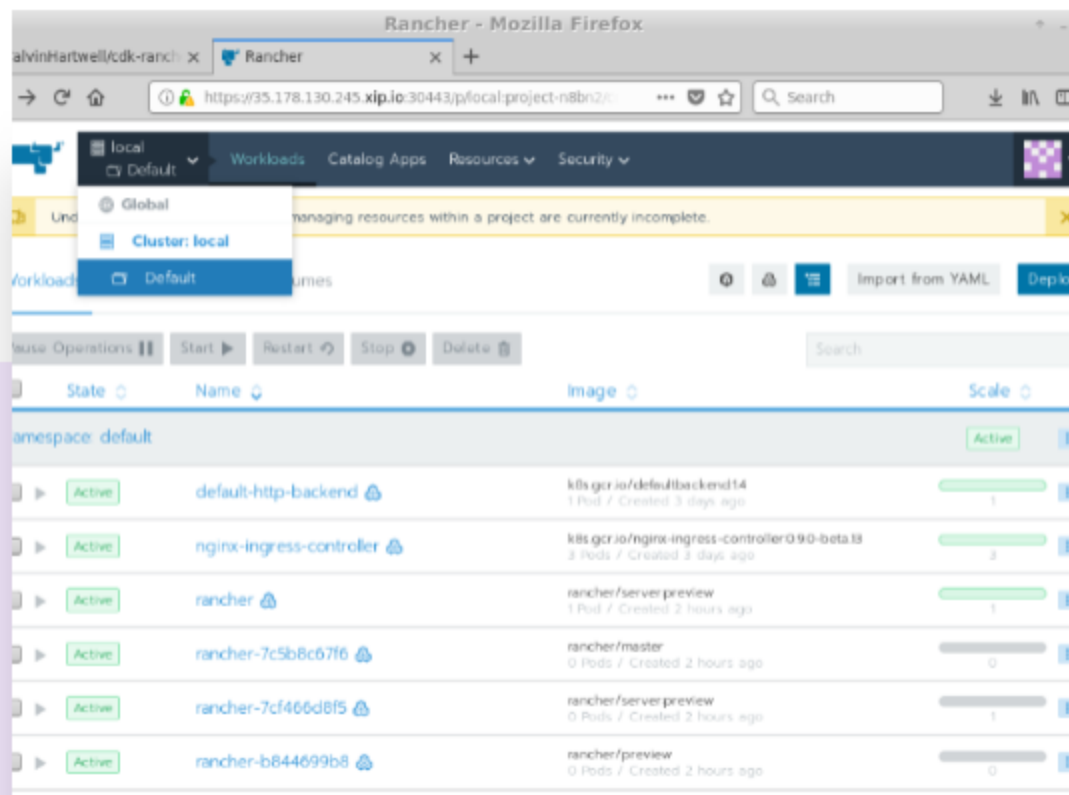

주요 특징

RANCHER

Rancher is not a container orchestrator.

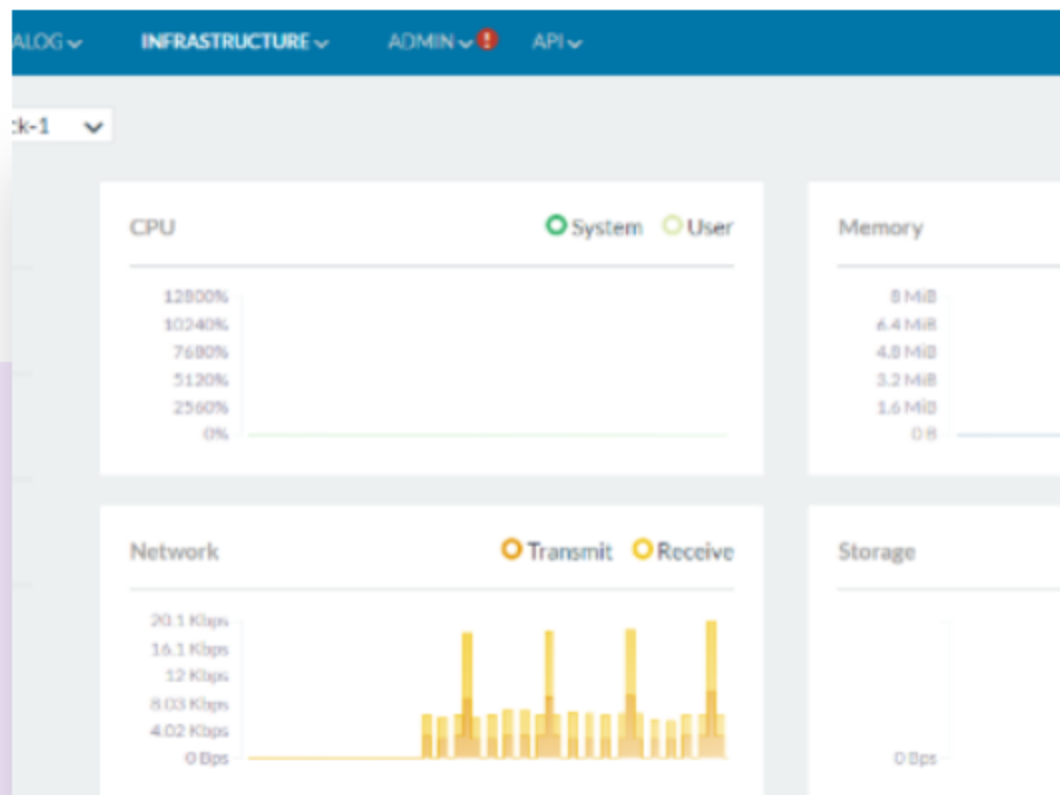

It's a complete container management platform that includes everything you need to manage containers in production.

You can quickly deploy multiple Docker and Kubernetes clusters across multiple clouds with the click of a button.

GUI Service

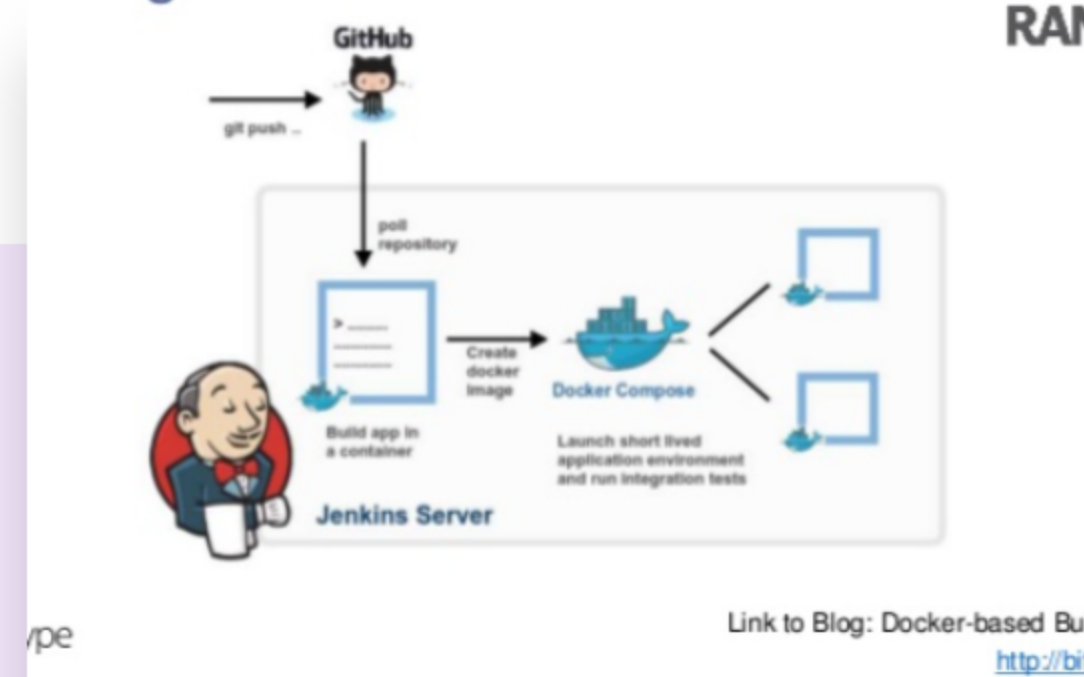

CUI 기반의 쿠버네티스의 어려움을 GUI를 통해 극복하면서 클러스터 관리를 위한 완벽한 UI 제공

All-in-One Platform

네트워킹, 스토리지, 호스트 관리, 로드 밸런싱 등 컨테이너를 위한 완벽한 인프라 서비스 제공

According to Rancher

DevOps

소프트웨어 개발 파이프 라인에서 CI / CD 도구를 사용한 자동화 기능 제공
